## Open spaces keeping privacy

Stylos is a decorative glass that offers an elegant textured vertical design that is embellished with the passage of light while maintaining privacy.

It is also characterized by its excellent technical attributes and high quality that differs from standard patterned glass.

more resistant

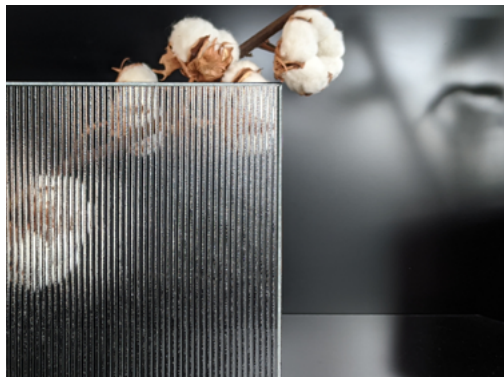

easier to install

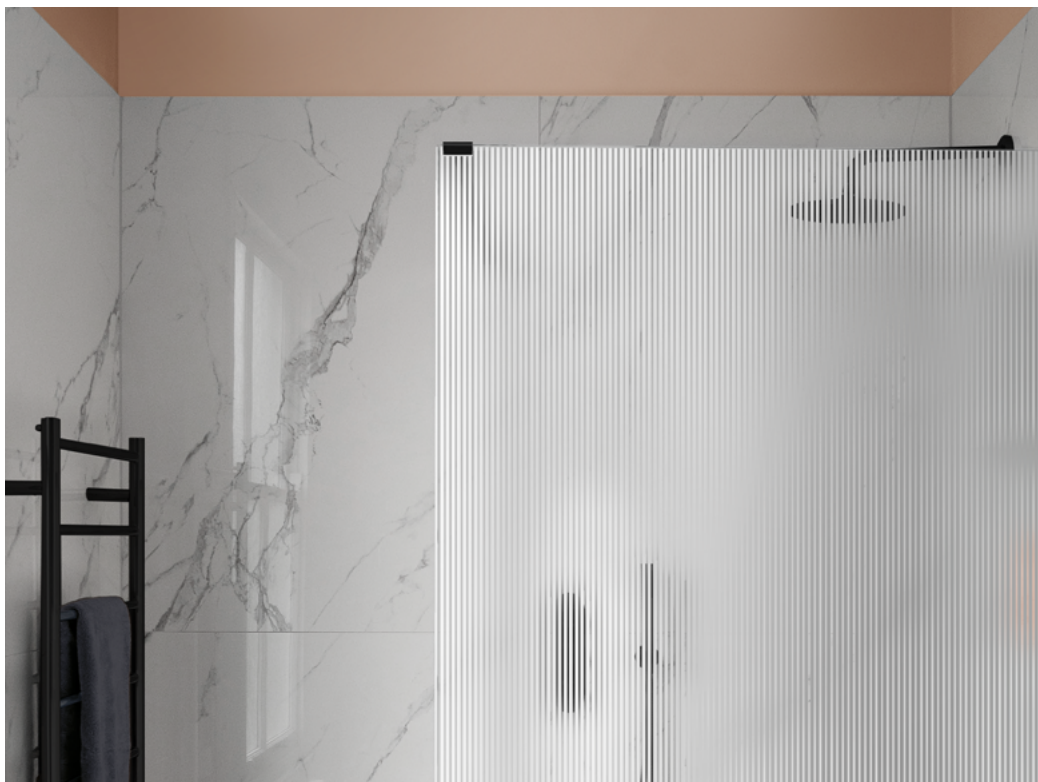

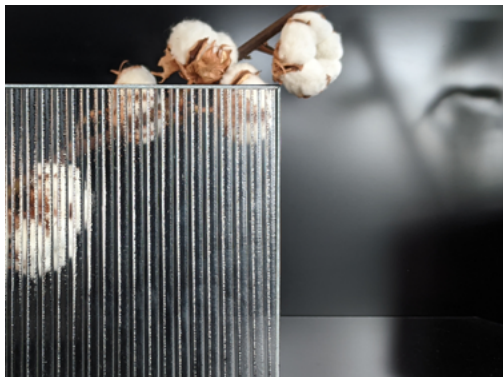

local production

Benefits of Stylos etched glass vs standard patterned glass:

- More resistant. Less breakage in handling.
- More planimetry.
- Easier to install.
- Versatility in thicknesses, size, and colors.
- Local production (without supply setbacks and price increases).
