VIDRIERA DEL
CARDONER S.A.

If you're looking for a solid, long-lasting product that is highly resistant to the passage of time, we have the best solution.

Get the unique look of chemically engraved glass in a wide range of textures and several designs, with different combinations of engraving, relief and roughness, in a product that is highly resistant to wear and tear, unlike other materials applied to the surface of antislip glass. Maximum grip and safety on both wet and dry surfaces.

for use inside
and out

certifications

durability reports

All models of Cameo Glass Antislip are certified to meet applicable international standards.

N

Angelina

Angelina, the new hydraulic mosaic made of glass!

Geometric, floral, and plant motifs are combined and repeated among themselves in different 15x15 cm pieces.

CHARACTERISTICS

| **base products**
clear float glass
low-iron glass

| **sizes**
126.38 x 88.58 in
3.210 x 2.250 mm

| **thicknesses**
0.23 | 0.31 | 0.39 | 0.47 in
6 | 8 | 10 | 12 mm

TREATMENTS ALLOWED

| lamination and tempering

* the tempering process may alter the physical characteristics of the product, making it less slip resistant.

CERTIFICATIONS

| **dynamic coefficient of friction**
ANSI A137.1

| **static coefficient of friction**
ASTM C1028

| **slip resistance (pendulum)**
UNE 41901
UNE-ENV 12633

* The trials were conducted with the product manufactured by Vidriera del Cardoner without applying any sort of treatment. Any treatment applied to the product may affect its specifications and quality. Vidriera del Cardoner shall not be held liable for any such modifications.
